-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 01/04/2006 has been entered. Claims 1-31 and 33-34 are hereby canceled. Claims 32 and 35-57 are pending.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 32 and 35-43, drawn to retrieving and transmitting information, which includes instructions and definition that define a functionality and an appearance of a user interface, classified in class 715, subclass 744.

II. Claims 44-47, drawn to storing addresses for content in the data store, classified in class 715, subclass 530.

III. Claims 48-57, drawn to monitoring network information, classified in class 709, subclass 224.

3. The inventions are distinct, each from the other because of the following reasons:

The inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as retrieving and transmitting information, which includes instructions and definition that define a functionality and an appearance of a user interface. Invention II has separate utility such as storing addresses for content in the data store. Invention III has separate utility such as monitoring network information. See MPEP § 806.05(d).

4. The inventions are distinct, each from the other because of the following reasons:

- a. These inventions have acquired a separate status in the art as shown by their different classifications.
 - b. The search required for one Group is not required for the other Groups
- For the reasons above restriction for examination purposes as indicated is proper.

5. Applicant is requested to formally cancel the non-elected claims.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
